

# Modern Workplace: El nuevo puesto de trabajo inteligente

## Microsoft 365

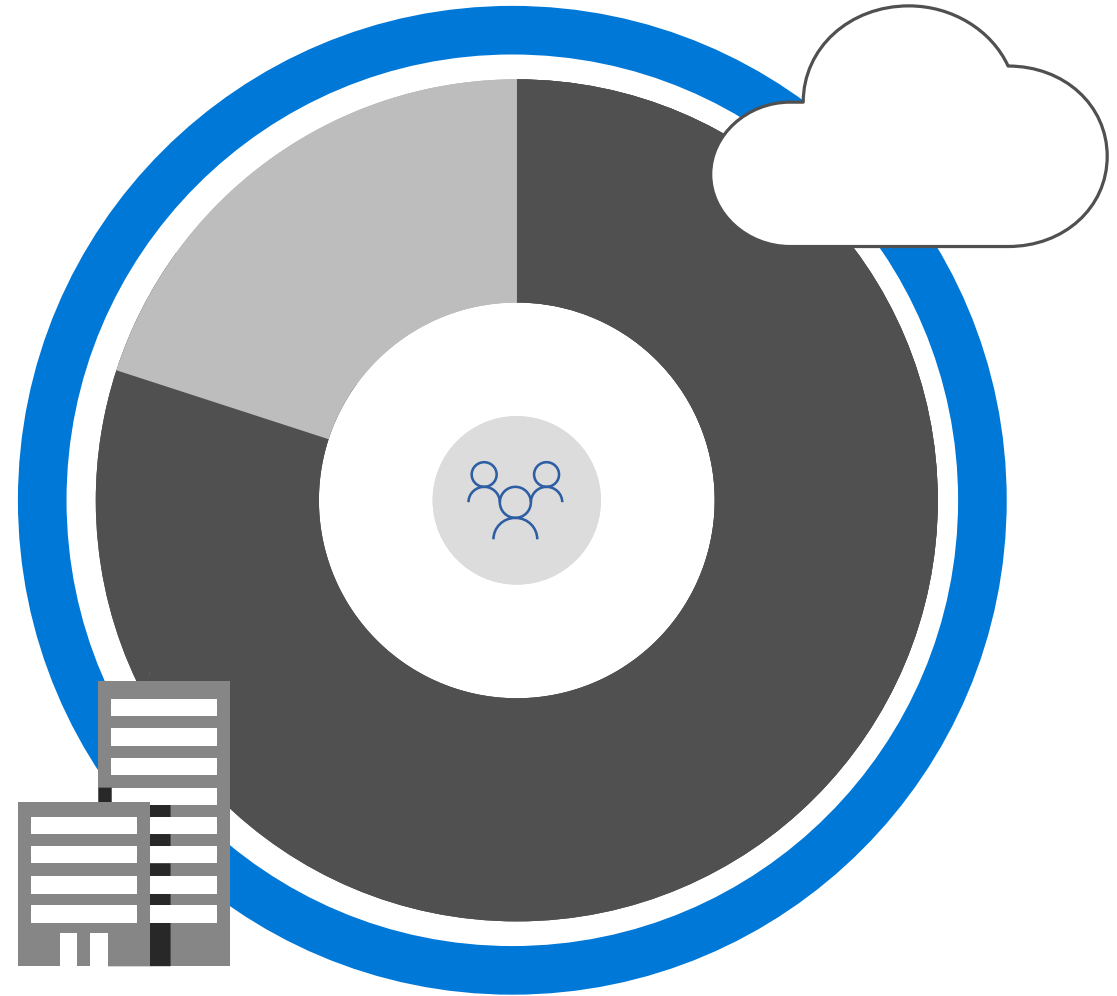

Juan Blázquez – Solutions Professional  
[Juan.blazquez@Microsoft.com](mailto:Juan.blazquez@Microsoft.com)

# Digital transformation is driving change

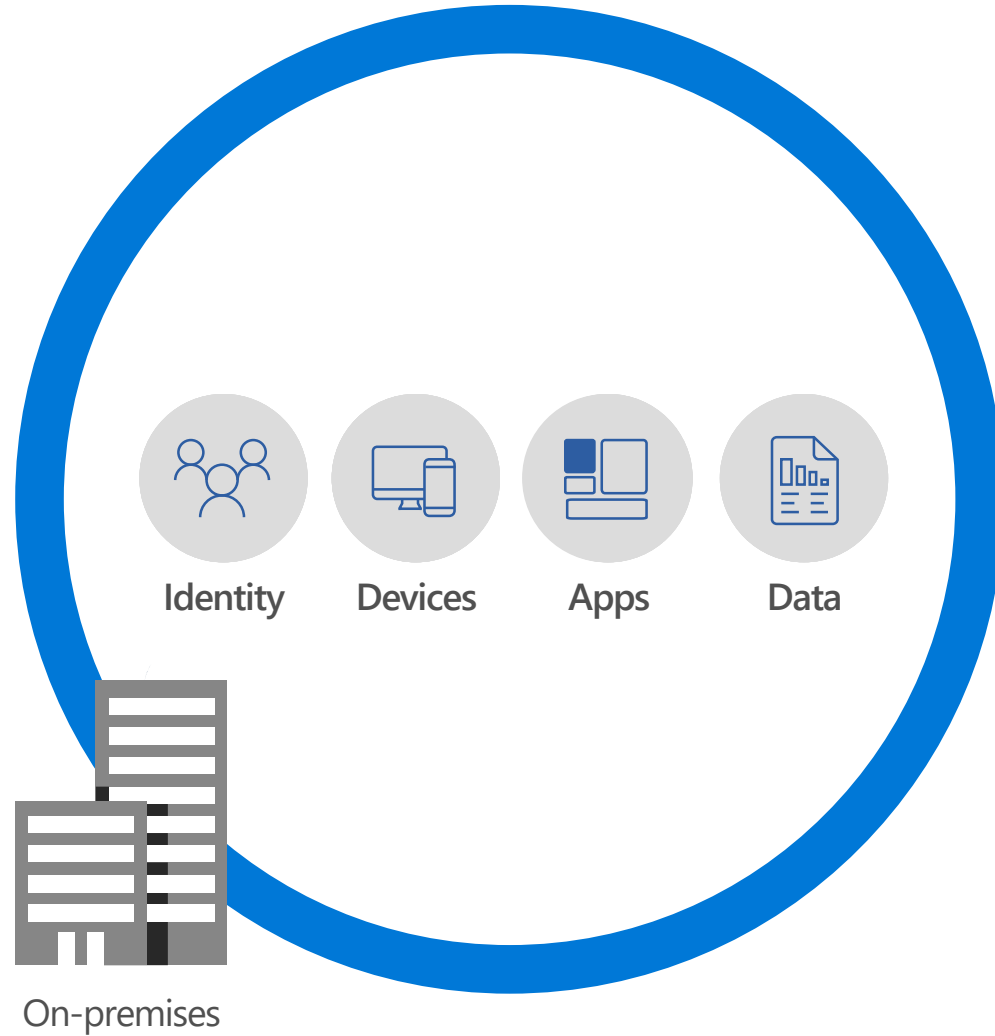

**80%** of employees time is spent collaborating

**85%** of enterprise organizations keep sensitive information in the cloud

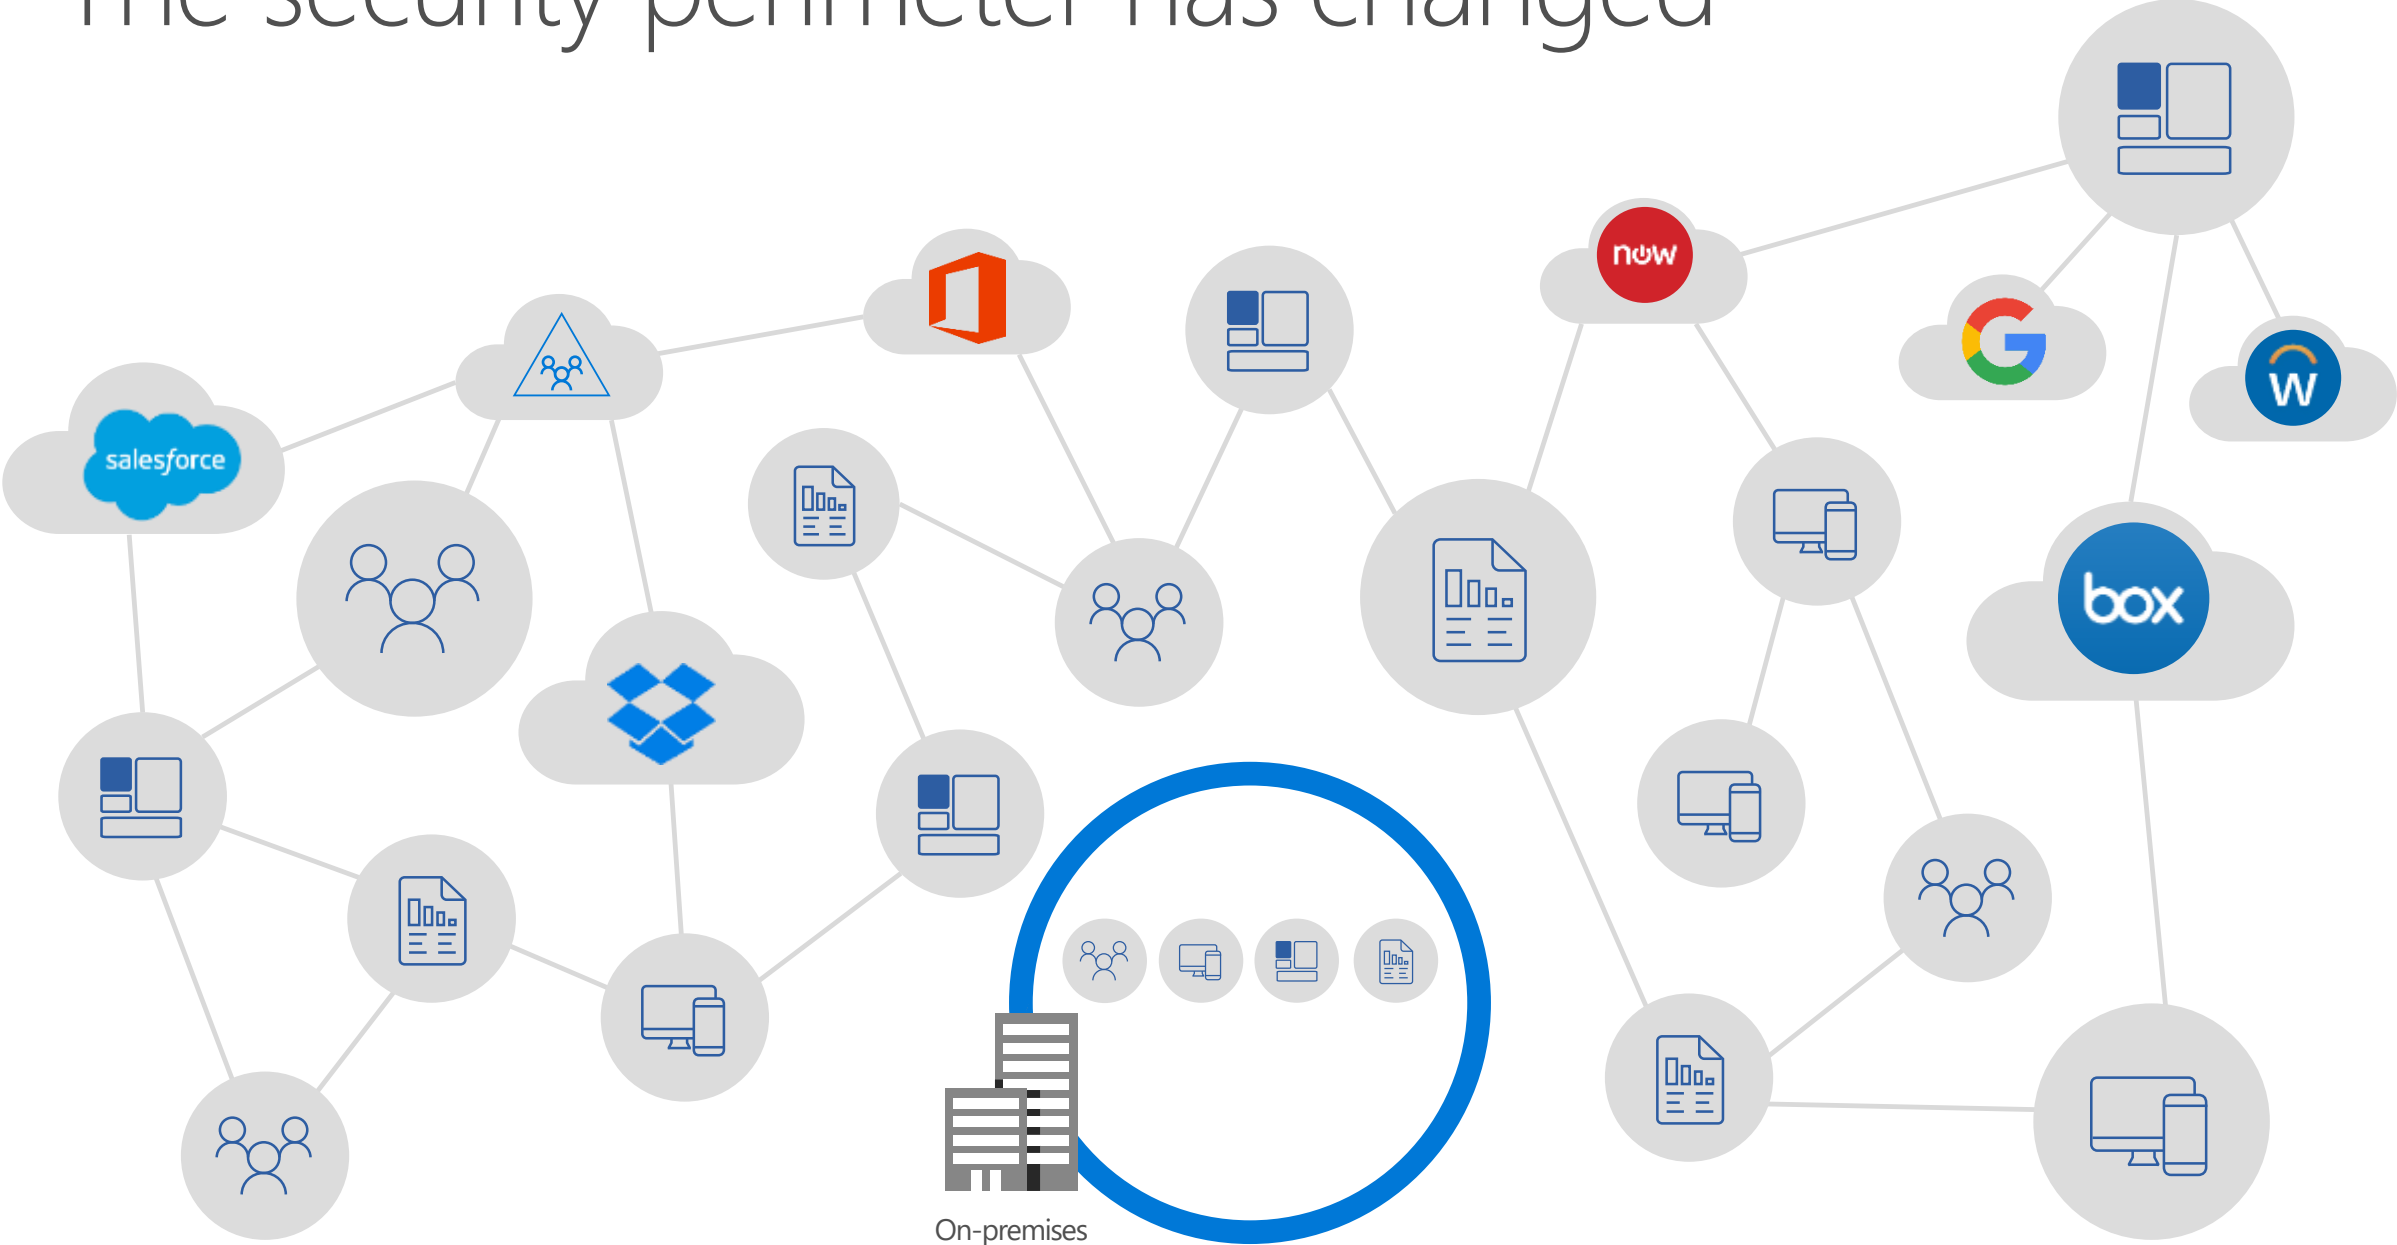

**80%** of employees use non-approved SaaS apps for work

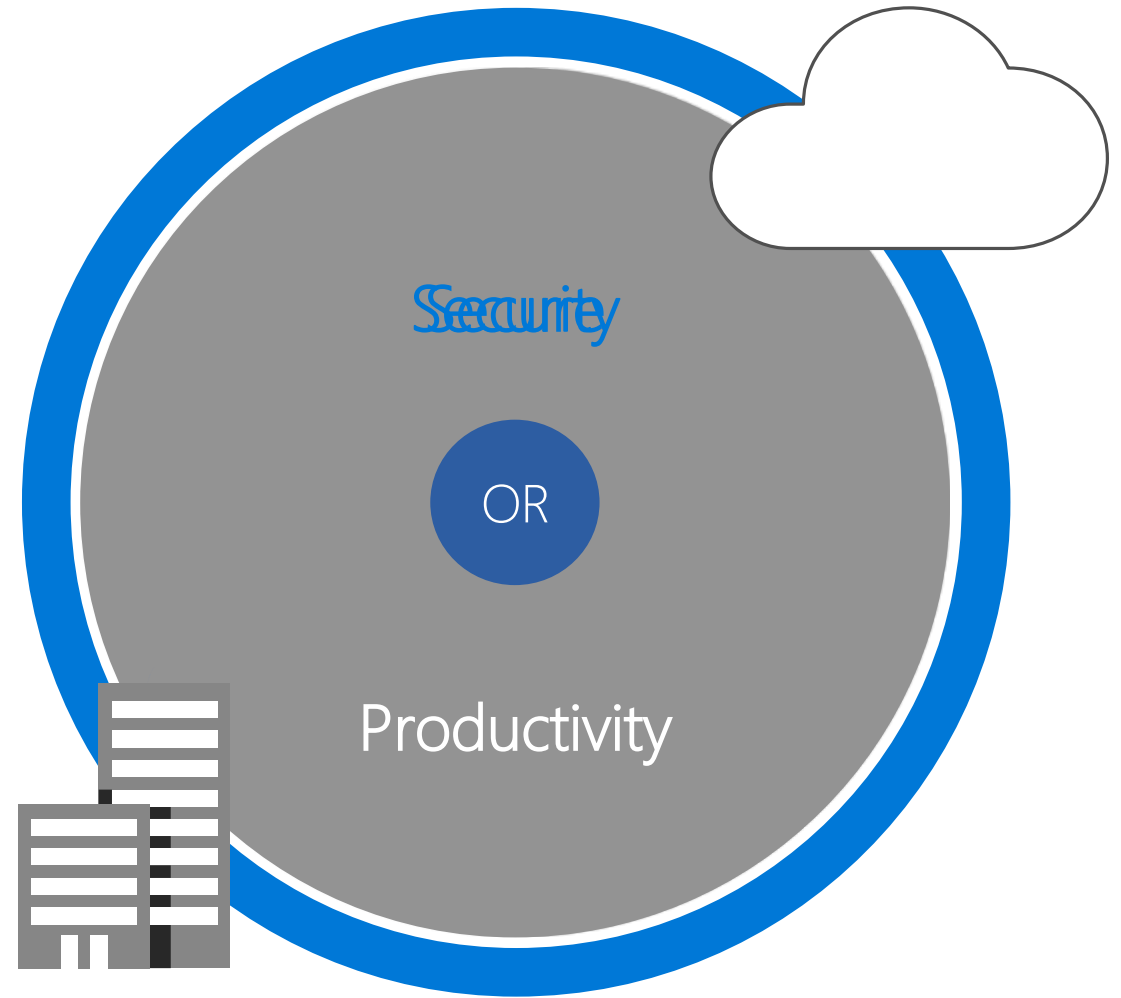

# The collaboration perimeter is changing

# The security perimeter has changed

How do we enable productivity without compromising security?

**It's a delicate balance**  
**The security you need integrated**  
**with the productivity tools you want**  
between productivity & security

# Microsoft 365 Enterprise
